An Emergency Medicine Conference with a Conscience

Doltone House, Jones Bay Wharf  
Sydney, Australia

May 1-5, 2012

## **Invitation to Attend**

**The organising committee of DevelopingEM 2012 invites you to attend a conference with a difference, a conference with a conscience.**

DevelopingEM is a not for profit conference organising agency specialising in providing a practical clinical approach to the delivery of emergency medicine education to senior emergency clinicians. Our short-term goal is to establish an innovative medical education experience within Australia. We aim to provide a clinically relevant educational experience aimed at the senior emergency physician and supported by evidenced-based information.

In the future we hope to export this concept to the developing world. Beyond our educational goals, we also hope to grow a network of Emergency Medicine and Critical Care specialists with an interest to provide medical education, training, and health care to underserved regions of the developing world.

Our first venture, DevelopingEM 2012 will hopefully pave the way for the establishment of a regular Australian and overseas conference system with these same ideals.

**See you in Sydney and hopefully in Havana, Cuba in 2013.**
